

SAFEGUARDING CHILDREN

Safeguarding and promoting the welfare of children is defined as (Keeping children safe document September 2021)

- protecting children from maltreatment;
- preventing impairment of children's mental and physical health or development;
- ensuring that children grow up in circumstances consistent with the provision of safe and effective care; and
- taking action to enable all children to have the best outcomes.

Autism Early Support Trust Limited is fully committed to safeguarding and protecting the welfare of all children and young people. We recognize our responsibilities to take all reasonable steps to promote safe practice and to protect children and young people from harm, abuse and neglect.

AES acknowledges its duty to act appropriately with regards to any allegations towards a member of staff or volunteer, or towards any disclosures or suspicion of abuse.

AES recognizes its duty of care to safeguard children as detailed under the Children Acts' 1989 and 2004 and this policy has been developed in accordance with those principles and in line with the following:

- Working together to safeguard children 2018
- What to do if you are worried a child is being abused 2015
- Keeping Children Safe in Education 2021
- Buckinghamshire Safeguarding Children Partnership

(This policy should be read alongside the above documents)

AES believes that:

- The welfare of all children and young people is paramount
- All children, whatever their age, culture, ability, gender, language, ethnicity religious or spiritual beliefs and/or sexual identity, have the right to protection from abuse.
- All allegations, reports or suspicions of abuse should be taken seriously and responded to in a swift and appropriate manner

AES will ensure that:

- All children and young people will be treated equally and with respect and dignity
- The welfare of each child will always be of highest priority
- Bullying (in any form) is neither accepted nor condoned
- Action will be taken to stop any inappropriate verbal or physical behaviour
- There is a clear line of accountability with regards to safeguarding concerns
- Staff and volunteers will be kept updated with regards to changes in legislation and policies for the protection of children and young people
- Staff and volunteers will undertake relevant and appropriate development and training in relation to safeguarding children
- All staff and volunteers within the organization are fully aware of their responsibilities to safeguarding and their duty to the children and young people in their care, and that they fully understand the correct process for reporting concerns.

Roles and Responsibilities

All staff and volunteers working for AES must:

- Understand the different categories of abuse and neglect, and how to recognize the signs.
- Recognise that some parents/ carers may require additional support
- Understand their responsibility to report any concerns that a child is being, or is at risk of being, abused or neglected. This includes reporting any concern they may have regarding another staff member or volunteer's behaviour towards a child or children.
- Understand the line of accountability for reporting safeguarding concerns, and be fully aware of AES's nursery safeguarding lead and their role within the organization.
- If appropriate; liaise with other agencies, contribute to safeguarding assessments and attend child protection meetings/ core groups/ conferences.

Abuse and Neglect are forms of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm, or by failing to act to prevent harm. Children may be abused in a family or in an institution or community setting by those known to them or, more rarely, by others. Children can be abused by an adult, or adults, or another child or children.

Research tells us that children with special needs are at an increased risk of abuse. These are fewer signs and indicators and more possible explanations. Children with communication difficulties may be especially vulnerable. As all children at the nursery have Special Educational Needs relating to autistic spectrum disorders and/or communication difficulties, it is particularly important that staff are vigilant of any changes to a child's usual behavior (and/ or caregivers) and share any concerns.

Physical Abuse: A form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms or, or deliberately induces, illness in a child.

Emotional Abuse: The persistent emotional maltreatment of a child such as to cause severe and persistent adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capacity, as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Sexual Abuse: Involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example, rape or oral sex), or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet). Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children.

Child Sexual Exploitation: This is a form of child sexual abuse. It occurs where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child or young person under the age of 18 into sexual activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial advantage or increased status of the perpetrator or facilitator. The victim may have been sexually exploited even if the sexual activity appears consensual. Child

sexual exploitation does not always involve physical contact; it can also occur through the use of technology.

Neglect: The persistent failure to meet a child's basic physical and / or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance misuse. Once a child is born, neglect may involve a parent or carer failing to:

- Provide adequate food, clothing and shelter (including exclusion from home or abandonment)
- Protect a child from physical and emotional harm or danger
- Ensure adequate supervision (including the use of inadequate care-givers): or
- Ensure access to appropriate medical care or treatment.

It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

FGM: There is also mandatory duty to report Female Genital Mutilation (FGM) of girls under the age of 18 to the police.

Safeguarding Lead

The Designated Safeguarding Lead for **AES** is Laura Gomersall, Head of Children's Services who can be contacted on 01296 733 900. If for any reason she is not available, (due to sickness, leave, etc.) staff and volunteers should report to the Deputy Safeguarding Leads, Julie Smith, Ella Millerchip, Mandy Simons, who can be contacted on 01296 733900 or 07422 574160. At least one of the above is contactable during all operational hours.

During Covid with homeworking in place contact may need to be through email as first point of contact

lauragomersall@autismearlysupport.org.uk

mandysimons@autismearlysupport.org.uk

juliesmith@autismearlysupport.org.uk

Oliver Robarts, is the designated safeguarding lead for the trustees over seeing our practice and reporting back to the trustees.

Early Years Service Deputy Designated Managers for Allegations in the Childcare Workforce

Vanessa Mills 01296 387111 Vanessa.Mills@buckinghamshire.gov.uk

Nathalie Furlong 01296 387111 Nathalie.Furlong@buckinghamshire.gov.uk

Early Years Designated Senior Manager for allegations against the childcare workforce

Alison Terry 01296 387147 Alison.Terry@buckinghamshire.gov.uk

Advice can also be immediately sought from:

The First Response Team

Member of Public - 01296 383962

Member of staff: 01296 382070

(out of office hours call: 0800 999 7677)

Email: secure-cypfirstresponse@buckscc.gov.uk

NB: This email address is only secure if emailing from another secure account.

The responsibilities of the Safeguarding Lead include:

- Ensuring safeguarding policies and procedures are up to date and are fully implemented by the setting and followed by staff and volunteers.
- Providing a direct point of contact for any staff member or volunteer who has a child protection concern.
- Ensuring all concerns are dealt with in a prompt and secure manner, and in line with the organisation's procedures.

- Ensuring that all child protection concerns are recorded and managed in an appropriate manner.
- Ensure that relevant information is shared with relevant agencies where appropriate.

Responding appropriately to concerns

At AES - the nursery, all children are supported with a high staff to child ratio (a minimum of a one to two basis) which allows for close monitoring and observation of a child and close working relationships with the child's parents/ carers. As the children at the nursery all have communication difficulties, it is unlikely, although not impossible, that a child will make a disclosure or allegation of abuse. Concerns may arise in one or more of the following areas:

- The child's behaviour
- The child has a physical injury
- The child's physical presentation
- Information from or observation/ behaviour of a parent/ carer
- Observation/ behavior of other staff members
- Peer on peer abuse

Disclosure of abuse: If a child or young person discloses that abuse or inappropriate behaviour has/ is taking place, the staff member or volunteer should:

- Listen to the child. Allow them to tell you what has happened in their own way, and at their own pace. Do not interrupt a child who is freely recalling significant events.
- Remain calm. Be reassuring and supportive but try not to respond emotionally. Provide reassurance they are being taken seriously, will be supported and kept safe.
- Do not ask leading questions. Only ask questions if you are seeking clarification about something they have said. Use TED; Tell, Explain, Describe.
- When you are able to, make an accurate record of what you have been told, taking care to note any times, dates, or locations mentioned. Use the child's own words where possible. Do not substitute anatomically correct names for body part names used by a child.
- Reassure the child that they did the right thing in telling someone and you are glad they told you. Reassure the child that they have not done anything wrong.
- Do not promise to keep their disclosure a secret, but reassure the child that you will only share the information with the right people who will be able to help them. Explain what you will do next.
- The child person disclosing information should NEVER be given the impression that they are creating a problem or be made to feel ashamed for making a report.
- At your earliest opportunity, speak to your Safeguarding Lead regarding the disclosure. If your Safeguarding lead and Deputy Safeguarding Lead are not available, ring First Response for advice.

If there is immediate risk of harm to a child DO NOT DELAY, ring 999

PROCEDURE:

1. All safeguarding concerns must be recorded and shared with the Safeguarding Lead (Laura Gomersall – Head of Children's Services) or Deputy Safeguarding Leads (Julie Smith, OT / Mandy Simons COO).
2. AES has a Safeguarding incident/concern form to be used for any concern by any member of staff. Information recorded must include the child's full name and date of birth and timed and dated observations. It must be factual and specific, and not subject to interpretation and be signed and dated by the observer. This record should be signed and dated and shared with the designated person.
3. The Safeguarding lead will record actions, if any, and also sign and date the record. (Information recorded may need to be shared with others at some stage and in exceptional cases, it is possible that they may become evidence in court proceedings). Records should include a clear comprehensive summary of the concern, details of how the concerns were followed up and resolved, a note of any action taken, decisions reached and the outcome.
4. In most cases, the first point of call is a/the parents unless it is felt that this puts the child at further risk/immediate risk of harm. If having talked to parents, there is still

- concern, the safeguarding lead will make a decision about further action, referring to the Thresholds Guidance. Next steps might involve undertaking an early help assessment or making a referral directly to children's social care/the police
5. If AES's Safeguarding Lead is unsure about whether to refer a case she can seek advice from First Response Service, LADO, social services, NSPCC helpline – help@nspcc.org.uk or 0808 800 5000.
 6. **In an emergency any one can make a direct referral to First Response or the police but must inform the Safeguarding lead, or deputy as soon as reasonably practicable.** All referrals should be confirmed in writing within 24 hours using the **Multi agency Safeguarding Hub online form**). *When referring a case of suspected or alleged abuse, the Safeguarding Lead should ask to be informed of the timing of the strategy discussions between agencies which will decide whether and how to proceed. The Safeguarding Lead will need to clarify with the other agencies involved when, how and by whom the parents and the child will be told that a referral has been made.*
 7. **If there are further signs of potential abuse and neglect, report and refer again.**
 8. The Safeguarding Lead should be prepared to contribute to the strategy discussion about the nursery's knowledge of the child.

Where a person (parent, professional or other person) has reasonable cause to suspect that a child is suffering or is at risk of suffering significant harm s/he must refer the matter to First Response Team – 0845 460001 or local rate 01296 383962 and follow up with a written referral within 24 hours.

AES will monitor and evaluate our procedures for effectiveness and to ensure we are satisfied that they are being complied with. This policy and our procedures will be reviewed at least yearly or as changes are needed.

Allegations or concerns regarding a member of staff or volunteer

All staff should take care not to place themselves in a vulnerable position with a child. Staff should make other staff members aware when they leave the group with a child and where they will be. All staff should adhere to AES Code of Conduct and follow safe working practices.

In the event of an allegation being made against a member of staff or volunteer the following procedure will be followed (please also see flowchart):

1. The individual raising the allegation should make a written record of the incident. This should include any known times, dates, location of incident (s), any person present, what was said etc. The record should be signed and dated.
2. The Safeguarding lead should be immediately informed, who is contactable during all operational hours. If unavailable, contact the LADO on 01296 382 070. If the allegation relates to the Safeguarding Lead, contact the LADO directly for advice.
3. The Safeguarding lead will countersign and date the written record. Decisions will be based on whether the LADO threshold has been met. Decisions and reasons for these will be included on the written record. If in doubt, the LADO can be contacted for advice.
4. If the LADO threshold is met, a referral will be made to the LADO. If not met, it will be managed internally.
5. Where a referral is made to the LADO, AES will follow all advice given by the LADO through the investigation process, including how to manage the staff member or volunteer against whom the allegation is made, as well as supporting other staff and volunteers within the workplace. AES will follow all advice given by the LADO relating to supporting the child or young person making the allegation, as well as other children and young people connected to the organization. AES will ensure feedback is provided to the LADO about the outcome of any internal investigations.

Registered providers must inform Ofsted of any allegations of serious harm or abuse by any person living, working, or looking after children at the premises (whether the allegations relate to harm or abuse committed on the premises or elsewhere). Registered providers must notify Ofsted of action taken in respect of allegations. These notifications must be made within 14 days of the allegations being made.

Transfer of risk: Should an individual staff member or volunteer be involved in child protection, other safeguarding procedures or Police investigations in relation to abuse or neglect, they must inform their employer. In these circumstances, the organization will need to assess whether there is any potential for risk to transfer to the workplace and the individual's own work with children.

If a member of staff has been dismissed or has resigned and there are concerns over their suitability to work with children, there is a duty to inform OFSTED and the Disclosure and Barring Service.

Record keeping

All Safeguarding concerns are recorded and are stored securely in a specific and confidential record, separate from the ongoing records of children's development and progress. These records will not be shared with any other members of staff or volunteers.

If an allegation is made against a member of staff, a comprehensive, confidential summary of the allegation would be kept on their personal file. This record would be kept by AES until normal retirement age, or 10 years after the allegation if longer. This record would include a clear outcome, including when cases have been investigated and found to be without substance. Records should include a clear comprehensive summary of the concern, details of how the concerns was followed up and resolved, a note of any action taken, descisions reached and the outcome.

Please also see IT and Data security Policy as well as Data Protection Policy

Safer Recruitment

AES follows safer recruitment practices, which are consistent with BSCP procedures; including obtaining full employment history, evidence of qualifications, references (minimum of 2 per staff member) and undertake interviews. It will be made clear to applicants for posts within AES that the position is exempt from the provisions of the Rehabilitation of Offenders Act 1974.

All applicants for work within the nursery, whether voluntary or paid, are required to complete an application for the role. They will be interviewed before an appointment is made and will be subject to the relevant disclosure checks for the role and written references from at least two referees. Referees will also be telephoned to verify details.

For all staff and volunteers over the age of 16, who will be in regular contact or working directly with the children, AES will obtain enhanced criminal record checks (DBS checks) and barred list checks prior to them starting work. No further checks are required unless the person has a break in service of more than 3 months. However, an enhanced DBS check may be required if there are any concerns. Staff are informed that they are expected to disclose any convictions, cautions, court orders, reprimands and warnings that may affect their suitability to work with children (whether received before or during their employment at AES).

For all staff and volunteers who have been overseas for more than 3 months within the last 5 years, we will complete a criminal record from the relevant authority in that country and seek additional information about the applicants conduct. Not all countries provide this service, we would therefore seek advice from the Disclosure and Barring Service.

All appointments, both paid and voluntary, will be subject to a three month probationary period and will not be confirmed unless AES is confident that the applicant can be safely entrusted with children. All staff are further supported by ongoing professional development meetings and supervision meetings and continued suitability is established. Staff are required to sign statements

regarding their ongoing suitability (See ongoing staff suitability form). However, staff as requested to share any changes of circumstance as they occur.

All staff and volunteers upon induction are made aware of our policy and procedures for safeguarding, Whistleblowing, Behavior Management, given a copy of AES's Code of Conduct and details of the Designated Person are shared. All staff are made aware of the government document, "What to do if you're worried a child is being abused" and Buckinghamshire Safeguarding Children Partnership guidance on recognizing signs of abuse. These are all explained as part of their induction process and reviewed regularly at staff meetings. Staff also attend approved Safeguarding training every 3 years.

Training

We seek out and supply statutory training in line with Buckinghamshire's guidance for all adults working in the nursery in order to develop their understanding of the signs and indicators of abuse and the procedures to be followed in appropriately sharing a concern or disclosure. All members of staff will complete online safeguarding training within the first 6 weeks of employment and attend a full safeguarding children training course within the first 6 months of employments and further full training is completed on a 3 yearly basis. Internal refresher training is undertaken at least annually.

All staff will undergo regular updated safeguarding training, including online safety. All training is integrated and aligned with whole service training and curriculum planning. This is also aligned with teacher standards.

Designated safeguarding lead and deputies - undertaken appropriate training for the role and will update their training with LA approved training every two years.

Confidentiality

AES recognizes that all matters relating to child protection are confidential. Child protection concerns, disclosures from children or safeguarding allegations against another member of staff or volunteer **must not** be discussed with the workforce as a whole. However, all staff must be aware that they have a professional responsibility to share information with the Safeguarding lead/ Deputy Safeguarding lead (or with Children's Social Care/ LADO as appropriate) in order to safeguard children. We will always inform parents or our concerns and our intended actions unless to do so could put the child at greater risk of harm, or impede a criminal investigation.

AES follows Buckinghamshire Safeguarding Children Partnership's key principles for information sharing (see attached flowchart). Information will only be shared if there is a clear and legitimate purpose for sharing information. Consent is sought to share information. As many children at AES also attend a mainstream nursery and have a number of other professionals supporting them, consent is gained from parents upon application for a place for AES to make contact. Information may still be shared without consent if, using professional judgement, lack of consent can be overridden in the public interest. Judgement will be based on facts. Information will only be shared with those people who need to have it, shared securely and in a timely fashion and is accurate and up to date. Records are kept of information shared, or decisions not to share. Where information is shared, records include what has been shared, with whom and for what purpose. If in doubt, AES will seek further advice. Information sharing will also be considered where children whom concerns have been identified, move to another provider. Information sharing is vital in identifying and tackling all forms of abuse and neglect, in promoting child welfare and their educational outcomes. We are able to share, hold and use information for these purposes as stated in Keeping Children Safe in Education, September 2021.

Escalation, Challenge and Whistleblowing

Staff should feel confident that they can raise any concerns they have about actions or decisions relating to safeguarding that are made by other professionals or agencies. Staff should refer to Buckinghamshire Safeguarding Children Partnership's Escalation, Challenge and Conflict Resolution Procedure, which provides a clear process for concerns to be raised.

Whistleblowing occurs when an employee or worker raises a concern about a dangerous or illegal activity that they are aware of through their work that may affect others. Concerns could cover a variety of areas, including safeguarding concerns. Please see AES's Whistleblowing Policy.

Safe working practices

AES safeguards children by means of good practice. A safe environment is provided and all play equipment and premises are safe and suitable for children – Also see **Health and Hygiene Policy**, **Safety policy (including risk assessments)**, **IT and data security policy**, **Behaviour Policy (including the use of physical intervention)**, **Anti-bullying Policy** and **Medicines policy**.

Visitors and Security

All **visitors (including Celebrities and Fundraisers)** are booked in by prior appointments and all staff are made aware of who is expected each day. Visitors are asked to identify themselves upon arrival and sign in, leaving mobile phones, cameras or recording devices in the office. Any unexpected visitors are expected to provide identification and the reason for their visit. All visitors are not left unsupervised. The visitors are directed to read the information about Health and Safety, emergencies, First aid and safeguarding. All visitors are supervised during their visit and not left unattended when with the children. All entrances to the premises are kept locked when the children are in the nursery.

Personal mobile phones, personal cameras and recording devices are not permitted in the nursery when children are present. All mobile phones are kept in the office whilst the nursery is in session. Staff should not bring personal cameras to work. A log is kept each day of whose phones are being stored in the office and the time they were locked away and collected. We request that parents and visitors do not use their mobile phones whilst in the nursery. Only AES computers, laptops, tablets and video recorders are to be used in the nursery and their use is monitored by a member of the senior team. A log for the use of the video recorders is kept recording the name of the person taking the device and the date and time of use, if they are taken off the premises for home visits. Cameras and recording devices are securely stored when not in use and photos and videos stored securely on a hard drive and stored in a locked filing cabinet within the centre.

As confirmed in the GDPR regulation act 2018, AES will ensure that written consent is sought from the parent or carer of any child under the age of 18 using our services before any photographs or film clips are taken. Permission is sought from parents/ carers when a child joins the centre with information about the different uses, with the options of giving permission for all, none or some uses. Due consideration will be given to the appropriateness of clothing and posture, and details such as a child's name or age will not be shared unless integral to the use of the image.

The use of Tapestry (online learning journal) for photographs and videos is password protected with only the COO, Head of Nursery, Deputy and specialist teacher(s) being able to log into Tapestry. Each parent and member of staff has their own user name and has their own pin code. Parents are only able to access their own child's learning journal.

e-Safety

At AES, children do not have access to the internet. iPads allocated for use by the children have the internet disabled. All children are also supervised when accessing technology. We support our families in regards to **e-safety** at home by making them aware of risks through discussion.

Families are only contacted through the use of AES email addresses and AES telephones. Personal email addresses, mobile phone numbers or social media accounts are not shared with families. AES has its own social media accounts, which is accessible to relevant staff members and approved at a managerial level.

Employees are asked to be mindful of professional boundaries and confidentiality issues on using **social network sites**. Employees must maintain their status as a professional childcare worker and, therefore, staff are asked not to become, for example, Facebook 'friends' with current AES families. Under no circumstances should any AES employee refer to children or families at AES or any other work related topics. Confidentiality and Data Protection requirements must be adhered to at all times, even outside of working hours. Relationships with staff/parents are important, and

their privacy must be respected in line with Data Protection Laws and general requirements relating to employment or service supply to the organisation. Any comments about AES families are not permitted under any circumstances. Any comments about work colleagues should not be made without your colleague's permission. Employees are responsible for all comments made to or about people connected to AES in any way. (See IT and Data Security policy).

Absences and collection of children:

Parents/ carers must ensure that they contact us and inform us of their child is ill or absent from a session. All absences are recorded, including the date, name of child, who contacted us and the reason for the absence. If we have an unreported absence, we will contact the parents after 15 minutes to confirm the situation. Parents must provide written notification if their child is to be collected by someone other than themselves. At the end of each session parents have 15 minutes 'talking time'. If a parent/carer hasn't arrived during this time, they will be contacted by telephone. At least two adults will remain with the child whilst they are waiting to be collected. If staff are unable to contact the parent/carer who is collecting the children, emergency contacts will be sought. If staff are unable to contact all the emergency contacts and no-one has collected the child by one hour after the session has finished, social services will be contacted.

Accidents/ incidents and use of physical intervention

All **accidents/ incidents** must be recorded in the **accident record** and signed and dated by the adult who observed this accident/ incident. **In the event of any serious accident, illness or injury to, or death of, any child in their care, Ofsted must be notified.** Parents must be informed of accidents/ injuries on the same day and asked to counter-sign and date any accident/incident which has involved their child. This will be done when parents collect their child at the end of the session. For those who travel by local authority transport, records will be photocopied and sent home and the parents/carers contacted by telephone on the same day. At least two members of staff at each session hold up to date first aid certificates. All staff, students and volunteers must follow AES's Behaviour Management Policy, particularly in regards to the use of physical intervention, following individual behavior plans as necessary. **All incidents resulting in the use of physical intervention should be recorded.** (See Behaviour Management Policy). Parents are asked to inform us of any bumps, bruises, scratches or injuries their child may have acquired prior to their session at the nursery. Staff record, sign and date, such incidences in the **'bumps and bruises' book.**

Prevent Duty

From 1st July 2015 all registered providers became subject to The Prevent Duty. All staff are responsible for protecting children and young children from radicalization and being drawn into terrorism. Staff training includes information about identifying children who may be vulnerable to radicalization or at risk of being drawn into terrorism, to know what to do when they are identified and to challenge extremist ideas which can be used to legitimize terrorism. Staff are alert to changes in children behaviour and/or changes in the behavior of their parents/ carers/ family members. Safeguarding procedures will be followed where there are concerns about a child being at risk or radicalization or being drawn into terrorism. The curriculum at AES also actively promotes British values of democracy, rule of law, individual liberty and mutual respect and tolerance.
